IDIBELL is looking for a Clinical Research Technician in Pharmacology for the Ethics Committee for Investigation with medicinal products (CEIm) of the Hospital Universitari de Bellvitge

About the research group
The Hospital Universitari de Bellvitge is a reference hospital for clinical research in various therapeutic areas. The Ethics Committee for Investigation with medicinal products (CEIm) of the Hospital Universitari de Bellvitge evaluated 545 biomedical research projects in 2021, including 38 clinical trials with medicinal products.

About the role
The candidate will be incorporated to the Committee as member at large, collaborating in technical tasks and providing support to the Technical Secretariat. This position reports directly to the Chairman, Vice-Chairman and the Head of the Technical Secretariat.
We are looking for a dynamic candidate with a high level of team collaboration.
Ability to work autonomously and to work in teams.
Main duties and responsibilities will be the following:
Evaluation of Clinical Trials with Medicinal Products, observational studies with medicines for human use and other research projects presented to the Ethics Committee for investigation with Medicinal products
Evaluation of substantial amendments to the aforementioned studies
Safety monitoring and follow-up of the aforementioned studies
When necessary, communication with Investigators, Sponsors and CROs
Participation in working groups of the Spanish Agency of Medicines and Medical Devices.
Participation in sessions of the Clinical Pharmacology Department
